## Progress of national vaccination programme

4. As of 4 August 2021, 65% of our population has completed their full regimen/ received two doses of COVID-19 vaccines under the national vaccination programme, and 78% has received at least one dose. In total, we have administered a total of 7,831,520 doses of COVID-19 vaccines under the national vaccination programme, covering 4,337,397 individuals, with 3,618,488 individuals having completed the full vaccination regimen. In addition, 115,970 doses of Sinovac vaccines have been administered as of 4 August 2021, covering 77,095 individuals.

**Condition of confirmed cases**

5. 577 cases are currently warded in hospital. Most are well and under observation. There are currently 40 cases of serious illness requiring oxygen supplementation, and 8 in critical condition in the intensive care unit (ICU). 7 amongst these 48 cases are fully vaccinated. Of these, 5 require oxygen supplementation while 2 require ICU care as they have underlying medical conditions. 36 seniors above 60 years, of whom 31 are completely unvaccinated or partially vaccinated, have fallen very ill.

6. Case 67610, a 79 year-old male Singaporean, has passed away from complications due to COVID-19 infection on 4 August 2021. He had sought medical treatment at Sengkang General Hospital on 4 August for shortness of breath and low blood pressure, and was confirmed to have COVID-19 infection on the same day. He had not been vaccinated against COVID-19, and had a history of heart disease, chronic obstructive pulmonary disease and hypertension. In total, 40 have passed away from complications due to COVID-19 infection.

7. There is continuing evidence that vaccination helps to prevent serious disease when one gets infected. Over the last 28 days, 80 local cases required oxygen supplementation, were admitted to ICU or passed away. 48 are unvaccinated, 24 are partially vaccinated and 8 are fully vaccinated.

<sup>4</sup> Fully vaccinated - more than 14 days after completing vaccination regimen (both doses of the vaccine or one dose for recovered individuals). Partially vaccinated – received 1 dose of 2-dose vaccine or COVID-positive within 14 days of completing vaccination regimen.
